

## **Job Notebook Assignment**

How does Job teach us about Christ?

**Name:**

All the books of the Bible teach us about Christ, and Job is no exception. The following passages are definitely about Job, but not just about Job. They teach us about our Savior.

- 1.** We could say that Job had some of the worst friends in his time of highest need. How did Jesus experience the same thing, especially in the Garden of Gethsemane?
- 2.** Read Job 42:49. What is Job doing in this verse?
- 3.** Who else in the ANE (ancient near east) or in Israel would take and prepare animals for sacrifice?
- 4.** Who is Job praying for?
- 5.** What is Job praying for?
- 6.** So putting all this together, how does what Job is doing, who he is doing it for and what he is asking teach us about Jesus?

**7.** Read Job 22:26-30 and 42:9. How does this prayer and answer illuminate the work of Jesus for us?

**8.** In the last chapter of Job, he is restored personally (by himself being healed and accepted by God) and restored within his community (being paid back double from what Satan stole). How does this personal and corporate restoration parallel Christ's work and us?
